ADDRESS ALL COMMUNI-
CATIONS TO MT. AIRY,
CINCINNATI, OHIO

October 26, 1934

TO THE TRADE:

With the exceptionally low prices now prevailing in the Goldfish Industry. it is more important than ever to be careful of quality.

We have met every reasonable reduction in price but we have not lowered the quality of our fish at all. We grow and ship the finest type of commercial Goldfish only. We do not try to ship THE MOST FISH but we do try to ship THE BEST. All the fish we ship are individually selected while swimming in water. We do not pour them out on a table and grade by size while only one side is exposed to view. Our method takes longer but you don't get any culls or injured fish.

We believe our dealers appreciate the fact that Fancy Goldfish should not be bought by size alone. Until a few years ago we did not even mention the size of Fantails and Telescope Type fish. They were quoted by price groups only. Such considerations as fins, tail, color, body development and shape all enter into the selection. Hence today do not buy your Fancy Goldfish by the inch. Try an order from us this Fall. We will ship you healthy fish honestly graded and carefully handled. We guarantee live delivery and your entire satisfaction on every purchase. This guarantee holds good on every item we sell as per printed terms in our Catalogue.

TERMS: Net cash with order. Live delivery guaranteed on all perishable items except Tropical Fish shipped during cold weather. Prices F.O.B. Cincinnati, Ohio, subject to change without notice.

NOTE: Please return our shipping cans including any you now have on hand!

COMETS and COMMON GOLDFISH Mixed. Assorted colors choice quality.

	Per 100
2"	1.50
2-3"	2.00
3-4"	3.00

Page 2.

This Fall we suggest that you handle some of our Tropical Fish. Many dealers have hesitated to stock Tropical Fish because they did not know how to care for them. We are growing only the most popular kinds, and those which can be kept safely with ordinary attention. We handle two books on Tropical Fish which explain how to take care of them: "The A.B.C. of the Fish Fancier" price 20¢ each and "Tropical Fish Handbook" 25¢. These books and a little experience will show you how to handle Tropical Fish successfully. If your room will not stay at least 65 degrees at night use a few of our inexpensive heaters. A steady temperature of 70 is very satisfactory.

TROPICAL FISH

	Price each
